CHICAGO SHOOTOUT AS PER RACE DAY SCHEDULE

The Nostalgias 29th September 2019

WHAT IS CHICAGO SHOOT OUT?

Chicago Shootout is a style of racing that means no one gets eliminated!

After we finish Qualifying, we will give the cars in the Show n Shine a chance to cruise the track with their friends and family.

In the mean time we will be getting you ready for the 1st Round of the Chicago Shoot Out.

Come into the same Staging Lane number as per the previous page. We will pair you up in the Staging Lanes and run each bracket as per the Schedule where possible.

As stated above win or lose you come back into the Staging Lanes and race again this time against someone different.

We will run 3 rounds of Chicago Shootout then the two Racers with the most wins from each bracket will contest the Final. If there are more than 2 Racers on the same number of wins then the better performer(s) of the 3rd Round will go into the Final. The better performer is the racer that has a Win in the 3rd Round and runs closest to his or her Dial In.

WHAT IS 'DIAL YOUR OWN' HANDICAP RACING

Dial Your Own Handicap means just that, you write your own Handicap (the time you think you can run) on your car and that determines your handicap. For example if you dial in at 13.50 and your opponent dials in at 12.50 then you will receive a 1 second head start. The trick is to run as close as you can to that Dial In without going faster than it, if you do go too fast you will break out and lose that round.

Officials in the staging lanes can help you if you are not too sure however just check your qualifying time cards and that will help you determine where to Dial In.

Thank you for taking the time to read this information, we trust you will have a great day out with your car and hopefully we will see you at the Trophy Presentations straight after the Finals.

Please take care on your way home and enjoy the rest of the Queen's Birthday Long Weekend.
